Boone County Health Center Albion, Nebraska

Staff at the Boone County Health Center are committed to providing their patients with the highest quality medical care and services. To honor this commitment, Boone County Health Center has contracted with Beckenhauer Construction to make the necessary modifications to keep their building on the cutting edge. Improvements include additions and renovations for cardiac rehab, physical therapy and dining. Phase Two will include adding an MRI plus modifications to the ER, radiology and main reception areas.

A Little Bit of History

Beckenhauer Construction was born in Wakefield, Nebraska in 1878. In 1909, the operation moved to Norfolk and the business has remained here since. Currently in its fourth generation, Beckenhauer Construction has left a legacy of numerous churches, schools, hospitals, business's, and public facilities all across Northeast Nebraska. Many facilities built in the twenties and thirties still are actively serving their purpose.

Groundbreaking for the new front entry addition to the Buffalo County Courthouse.
