Spring 2012

Build Nebraska Awards

Congratulations
Winners

Joe Beckenhauer with the AGC Build Nebraska Award.

The 2011 Build Nebraska Awards

Cherry County Justice Center Project

For the second year in a row, Beckenhauer Construction has received Honorable Mention from the Associated General Contractors (AGC) Nebraska Building Chapter in the Build Nebraska Awards. This year, Beckenhauer submitted the Cherry County Justice Center in the Renovation Project over \$2 Million category.

This project was under consideration and in process by Cherry County for more than 30 years and underwent many changes before an agreement was reached between the city and county. This time and change ultimately paid off with a wonderful new addition to the courthouse and renovations to existing areas.

Spring 2012

Jenny Matthies receiving the Employee of the Year award from Joe Beckenhauer.

Employee Of The Year

Finding good employees can be difficult, but finding a great one, like our Employee of the Year **Jenny Matthies**, is priceless.

Jenny is our Accounts Payable Clerk, but is always willing to jump in and help wherever she is needed. She always comes to work with a positive attitude and has a smile on her face. Congratulations, Jenny, and thanks for making our office a pleasant place to be.

Safety First!

For the third consecutive year, Beckenhauer Construction has received an AGC of America Safety Award. The recognition is earned for compiling an excellent safety record of zero safety incidences during the past three years. A big THANK YOU to **Jeff Ackerman**, our Safety Director, and all Beckenhauer employees for making this possible.

Joe Beckenhauer receives the AGC of America Safety Award from Linette Butler, Board of Directors President of the AGC Nebraska Building Chapter.

What Is A QR Code?

A QR code is a lot like a barcode you see on most products. QR codes are a great way to share information, such as websites and contact info. They can be scanned using your camera-equipped device (such as a smartphone) and a proper QR code processing application (most are free). Once the code is scanned and processed, it takes you directly to the URL on your device, or shows you whatever else was encoded in the QR code.

Try this! Scan the code to the left with your smartphone to learn about other current Beckenhauer projects.
