

## **HOLT COUNTY ANNEX**

Client: Holt County Completed: March, 2003 Location: O'Neill, NE Size: 14,600SF Services: Design/Build Industry: Community Facilities

## Project Summary:

We worked with the County and devised a Lease / Purchase plan that would meet, not only their needs, but include additional space the county could rent out to Nebraska State Health & Human Services. The new building needed to be constructed so close to the existing building that a portion of the new building could not be finished until after the County was moved into their new space and the old building was demolished.
